THULE AND SUSTAINABILITY

At Thule, we want to contribute to a more sustainable world through innovative, high-quality products, manufactured responsibly, that inspire people to live an active life outdoors. For us, that's sustainability.

THE FOUNDATION OF OUR ONGOING SUSTAINABILITY EFFORTS:

Our products and consumers – We'll continue to offer products that inspire a healthy and active lifestyle, are safe and easy to use, and have minimal impact on the environment throughout their life cycles.

Efficient and reliable manufacturing – We ensure climate-smart and efficient manufacturing. Always in a safe and secure working environment.

Responsible sourcing and logistics – When choosing suppliers, we take into account the environment, human rights, and good working conditions. Making our logistics more efficient, we lower transportation distances, optimize packaging, and make the best use of capacity.

Responsible business practices – We have strict ethical standards in our business relationships, open and inclusive workplaces, and we get involved with the community around us.

WHAT IS bluesign®?

bluesign® is an independent verifier that traces the complex journey through the supply chain to ensure that textiles are being manufactured with the lowest possible environmental burden, resource-improving production and augmented safety for workers and consumers.

SUSTAINABILITY MISSION FOR 2020:

The UN'S 2023 Agenda for Sustainable Development is a plan for creating long-term, sustainable, economic, social and environmental development for everyone. The Thule Group is one of many companies contributing to the 2023 Agenda and their sustainability efforts primarily contribute to the following goals.

CLEAN WATER AND SANITATION

- Reduce water consumption at Thule facilities and replace drinking water with rainwater
- Use closed water manufacturing systems to minimize discharge of hazardous materials

CLIMATE ACTION

- Reduce emissions of greenhouse gases at Thule plants by 65%
- Improve monitoring of greenhouse gas admissions throughout entire supply chain

AFFORDABLE AND CLEAN ENERGY

- Target 100% electricity from renewal sources in Thule plants

DECENT WORK AND ECONOMIC GROWTH

- Protect workers' rights
- Conduct CSR audits of supplies to counteract modern slavery, human trafficking and child labor
- Provide courses on human rights to employees

RESPONSIBLE CONSUMPTION AND PRODUCTION

- Reduce waste and increase recycling in manufacturing process
 - Achieve 96% recycling rate by 2020
 - Ensure 0% goes to landfills by 2030
- Continuously monitor and expand the list of materials and chemicals not used in products
 - Increase the use of recycled materials in products

GENDER EQUALITY | REDUCE INEQUALITIES

- Thule conducts continuous assessments of their employees' remuneration to ensure an equitable pay structure
 - Secure a gender-equality company with gender-equal leaders by 2030
